

InterpreterConnect (IC) Quick Reference Guide (QRG)

Prepare Your Device

The following items must always be verified before you can log in to take calls.

FAILURE to follow these instructions will impact your ability to take calls.

- Your device must be fully charged.
 - Keep your device plugged in whenever possible.
 - Check your battery status regularly.
 - There is no warning message when the battery is low when you are logged into InterpreterConnect.
 - Anything below 20% may lock you out of the system.
- Set the device to Airplane mode.
- Make sure to turn on Wi-Fi.
- Do not exit, background, and/or open any additional apps while you are connected using InterpreterConnect.
- Your workspace should be in a secure location free of any distractions such as noise, people, or animals.

Log In

- **ENTER** the URL: <https://interpreterconnect.myllsworld.com> in the web browser.
 - Use Safari or Google Chrome.
- **ENTER** your 6-digit Interpreter ID.
- **ENTER** your 6-digit PIN.

New User PIN: Change your temporary default PIN of **12345** in the Interpreter Portal at <https://www.myllsworld.com> if you haven't yet. The new PIN must be a 6-digit number. Use the new PIN for *both* the Interpreter Portal and InterpreterConnect.

TAP "Login".

2-Factor Authentication

- If it is the first time logging in with a NEW device, you will be prompted to enter the verification code sent to your Rackspace email for identity verification.
- Please note the code expires within 30 minutes.

Microphone Access

- Safari
 - You will be prompted to allow microphone access on the first call after every login.
 - TAP Allow when you see the notification asking for microphone access.
 - You can prevent this by tapping on the aA button to the left of the address bar, tapping Website Settings, and then changing Microphone to Allow.
- Android
 - You will be prompted to allow microphone access on the first call only the first time the device is used to log in.
 - TAP Allow when you see the notification asking for microphone access.

Receiving a Call

- Upon logging in and becoming Available, the screen will display, "You're ready for your next call!" You will hear a zip tone indicating you have received a call. Interpreter Connect will automatically display the greeting and instructions as applicable on the screen.

Processing a Call

- **LISTEN** for the whisper prompt instructions.
- **READ** the greeting exactly as it displays on the screen.
- **REVIEW** the Alert Note area for additional Client instructions before proceeding with the interpretation.
- **COLLECT** all requested data. Data must be complete and accurate. No fields are to be left blank.
- **OFFER** a dial-out on every call unless there is a restriction indicated in the Alert Note.
- **START** interpreting the call. Say: "I am ready for your instructions."

Data Collection

Ask the data collection questions to the Client. If any data collection questions are prepopulated and grayed out, these do not need to be collected unless you notice inconsistency in the answer listed based on the hints and/or Alert Note.

ENTER or SELECT the information in the blank field. There are two options:

- Free typing is available.
 - ENTER the information in the blank field.
- Free typing is not available.
 - OPEN the selection list as it appears on your device.
 - SELECT the answer from the selection list as it appears on your device.

Stay on Call Reminder

The icon of a miniature person indicates that the billing data may need to come from the LEP caller before interpretation begins.

N/A Checkbox

This option can only be used when the Client is unable or unwilling to provide the information requested.

CLICK the box next to N/A.

The N/A checkbox is not available for questions that require a mandatory answer.

Hints

Additional instructions for call processing and data collection. The location of the hint will vary depending on the display view.

Opening Statement Disclosure

READ the greeting *exactly* how it displays on the screen, including the Opening Statement Disclosure.

"I am proud to serve you. This call may be monitored for training and quality assurance purposes."

Do **NOT** say the opening statement disclosure when:

You hear the whisper prompt, "Interpreter, do not say the opening statement disclosure on this call."

Dial Outs

Place a dial-out upon the Client's request unless there is a restriction indicated in the Alert Note.

1. **ENTER** the phone number to dial exactly as provided by the Client.
2. **TAP** "Dial".
3. All parties will automatically be conferenced once the call is answered.

Get Assistance

TAP the "Get Assistance" button to initiate a transfer to the Customer Agent. Once connected, explain the reason for the transfer. You can get assistance with Wrong Language, Requests for Specific Gender, and Technical Issues.

Report Call

TAP the "Report Call" button to report call problems. Some categories will require additional supporting comments before submitting the report.

Categories	Sub-Categories
1. Problems at the start of the call	• Received a call and nobody was there • Wrong language • LEP Call
2. We had problems hearing each other	• The customer couldn't hear me • Static on the line • Too much background noise
3. Call ended mid-conversation	• Call UNEXPECTEDLY ended mid-conversation • Customer never returned from hold (followed hold time policy) • Customer said they no longer needed interpretation
4. Did not service call	• Dial-out didn't work at all • Difficult Client or LEP • Difficult Vocabulary or Terminology • Test Call
5. It's something else	• Something else happened

Log Out

TAP the "Log Out" button at the time you are finished taking calls. Close the browser to ensure calls are no longer routed to you.

Refer to the LLS Libraries for additional information about this topic and other helpful resources.
