

When it comes to Ridesharing, there is specific terminology interpreters need to become familiar with to assist calls requiring interpretation services. There are terms commonly used regardless of Ridesharing Company. Furthermore, even though Rideshare Insurance policies might not be available in every state, they are becoming more and more common for insurers as well as the insured parties.

Acceptance rate: Tarifa/Tasa de aceptación/acordada. - Reflects the percentage of trips you accept to drive when a ping comes in. Ignoring or declining too many trip requests may affect your ability continue driving or you may be temporarily prohibited from going online to work

App: Aplicación. Refers to the program a driver or rider must download to their smartphone in order to request or accept rides.

Cancellation Rating: Índice de cancelación. Reflects the percentage of trips cancelled by the driver after they have accepted a trip request. Cancelling too many trips may affect your ability continue driving or you may be temporarily prohibited from going online to work.

Deactivated: Desactivado. When you are prohibited from going online to drive, permanently or temporarily, due to issues like a rider complaint or expired documents.

Distracted driving: Conducción distraída/Manejo distraído. Driving your car while distracted is dangerous and often illegal. Texting and using your phone are the most well-known distractions, but fiddling with your radio, looking at a map or GPS system, eating and drinking, talking to passengers and applying makeup also take your eyes off the road—and raise the risk of getting in an accident. Traffic tickets for texting or using your phone, as well as accidents caused by distracted driving, can drive up your insurance rates.

Driver: Conductor/chofer. The driver is a partner with the rideshare company, they are owner-operators working as independent contractors.

Driver in hour: Conductor/Chofer por hora. Refers to an individual who works driving passengers or riders or freight who may be on duty for up to 14 hours following 10 hours off duty, but they are limited to 11 hours of driving time. They are asking for any driver in hour who lives in the same household.

Rideshare gap insurance: Seguro de brecha para viaje compartido. The gap in your auto insurance coverage when you drive for a transportation network company (TNC), such as Uber or Lyft. Nearly every carrier's auto policies exclude coverage for incidents that occur when a personal vehicle is used to transport paying passengers, such as during ridesharing.

Hail: Llamar (la atención) con la mano A method of flagging down a taxi. Rideshare drivers are not allowed to pick up passengers who hail them from the sidewalk.

Hybrid policy: Poliza híbrida. It means a policy that includes ridesharing and personal use. It can cover you whether you have the Uber or Lyft app on or off.

Independent Contractor: Contratista independiente. A self-employed individual who provides goods or services under contractual terms.

Long trip: Un largo viaje/un viaje largo. Displayed when a ping comes in to indicate the trip will be typically at least 45 minutes.

Livery: refers to vehicles for hire, including taxis, limos, and rideshare drivers. (no equivalent found)

Lyft Plus: Lyft Plus. The cheapest private ride option for 1-6 passengers with Lyft, typically a van or SUV

Mystro: Mystro. An app used to switch quickly between to rideshare apps. This allows the driver to maximize their time and efficiency in accepting pings.

Pax: Pasajero. A term for a rideshare passenger.

Personal auto insurance policy: Póliza de seguro de automóvil personal: Personal Auto Policy (PAP) — a standard form promulgated by Insurance Services Office, Inc. (ISO), for insuring private-passenger-type autos owned by individuals. The policy may be structured to provide a combination of liability, personal injury protection (PIP), medical payments, uninsured and underinsured motorists (UM/UIM), and physical damage coverages.

Ping: Tintineo. Refers to a short, high-pitched ringing sound in the rideshare app that alerts drivers that there is a trip request they can accept or decline

Prime Time: Horario estelar/de alta ocupación. Term used by Lyft to indicate an increased rate of pay for a driver (and increased fare for rider) above the standard fares, in a certain area of the city, when there is high demand for rides and not enough drivers in the area.

Private Transportation Company (PTC) License: Licencia de la Compañía de Transporte Privado (PTC). Refers to a license required to operate as a Rideshare, taxi, or limo driver.

Rating: Clasificación. Most rideshare apps allow the driver to rate a passenger and a passenger to rate a driver, which can impact either of their ability to use the service if it drops too low

Ride: Viaje. The trip taken while transporting a rider from destination A to destination B.

Rider: Pasajero/viajero. The end user side of a rideshare application. Rider refers to the individual who requested the rideshare service.

Ridesharing endorsement: Endoso/respaldo de viajes compartidos. Additional coverage that may help fill that coverage gap. It extends certain coverages on your personal policy so that they apply during the "app on" period when you're waiting for a ride request.

Ridesharing Coverage: Cobertura de viajes compartidos. Rideshare insurance covers you while driving passengers for any rideshare service. While companies like Uber and Lyft offer some insurance protection, your coverage may be limited while you're waiting to match with a rider. Many auto insurers, offer rideshare coverage that can be added to your personal auto policy in most states.

Ridesharing company: Compañía de viajes compartidos - A ridesharing service such as Uber or Lyft where drivers operate in a taxi-like fashion, generally booked in real time over the internet or through an app.

Real-time ridesharing: Viaje compartido en tiempo real. Also known as instant ridesharing, dynamic ridesharing, ad-hoc ridesharing, on-demand ridesharing, and dynamic carpooling, is a service that arranges one-time shared rides on very short notice. This type of carpooling generally makes use of three recent technological advances.

Rideshare GPS navigation device: Device that uses the global positioning system (GPS) is a 24-satellite navigation system that uses multiple satellite signals to find a receiver's position on earth. It helps to determine a driver's route and arrange the shared ride.

Rideshare Smartphones app: Dispositivo de navegación GPS para viaje compartido. The app to arrange a ride in a usually privately owned vehicle, for a traveler to request a ride from wherever Ridesharing is a service that arranges one-way transportation on short notice.

Surge: Sobrecarga/Aumento. An increased rate of pay for a driver (and increased fare for rider) above the standard fares, in a certain area of the city, when there is high demand for rides and not enough drivers in the area.

TNC Coverage Deductible Gap: Brecha del deducible en la cobertura de TNC. A ridesharing endorsement may that helps reduce your out-of-pocket expenses when it comes to paying a TNC policy's high deductible.

Transportation Network Company (TNC): Compañía de la red de transporte. An organization which pairs riders with drivers. Usually through the assistance of a smartphone app. TNC is a new term being used by government entities to refer to rideshare companies such as Uber and Lyft. You may have seen it at airports, as they are starting to label the designated pickup areas (or waiting areas for drivers) with these signs.

UBI (Unified Business Identifier) number: Número UBI (Identificador de Compañía Unificada) A UBI number is a 9-digit number that registers you with several state agencies and allows you to do business in Washington State. A UBI number is sometimes called a tax registration number, a business registration number, or a business license number. It is a tax ID number related to a business that doesn't have employees.
