

Travel and Hospitality

The travel and hospitality sector comprises a wide range of products and services, including leisure and business travel, accommodation, food and drink services, rentals and more.

What type of calls do we receive?

Airports, travel agencies, call centers:

We help both clients and LEPs who might need some assistance over the phone.

LEPs that have missed a flight and need to talk to someone at the counter, luggage that has been lost that needs to be reported, etc.

Some people rather talk to representatives on the phone to make inquiries instead of using websites or phone apps.

Hotels and accommodation:

Helping LEPs check in and out of hotels. Asking questions about amenities, filing complaints, making payments, etc.

Bookings and reservations:

Helping people book flights or manage their flight reservations, asking information about car rentals, etc.
