

Worker's Compensation

(a.k.a Worker's comp)

It is a **form of insurance** that provides **wage replacement** and medical benefits to employees injured in the course of employment.

Designed to ensure that employees who are **injured or disabled** on the job are not required to cover medical bills related to their on-the-job injury.

Work-related covered losses

Pérdidas coberturadas relacionadas al trabajo

- **Bodily injury** from accidental means, including death.
- **Occupational diseases** or physical conditions unique to the occupation.
- **Medical** benefits.
- **Rehabilitation** benefits.
- **Death** benefits.
- **Income replacement** benefits

Nurse Case Manager

Enfermera(o) Gerente/Administradora(o) de caso

- **Serves as a connection between all parties involved in the WC's case.**
- **Responsible for helping an injured worker to obtain the medical care they need.**
- **Usually the NCM will call the injured worker and get a recorded statement.**

Protocol to handle Worker's comp.

Recorded Statements

- Inform the client in case there are audio issues **at the beginning of the call.**
 - All information **MUST** be interpreted fully.
 - **NO** additions. **NO** omissions.
 - Every comment the LEP person may make.
 - If LEP is digressing we may suggest the client to instruct the LEP to keep statements short.
- We could use the following:

“Would you like the interpreter to instruct your client to answer the questions posed concisely?”
